Part 2 – Tribe Telecommunications Group Ltd Code of Practice for Premium Rate Services and NTS Calls

Purpose of this Code of Practice

This code informs you about our policies on providing information about Premium Rate Service (PRS) calls and on our charging policy for calls to NTS and PRS Numbers.

Premium Rate Services

Premium Rate Services (PRS) are telephone numbers that offer some form of Information or Entertainment and charged to your phone bill. UK-Based PRS Numbers are normally prefixed by "09". 0871 is also designated as a Premium Rate Number and subject to PRS Regulation. Typical services include TV Vote Lines, Mobile Ringtone Downloads, Technical Helplines, Charity Fund-Raising and Adult Entertainment.

Charges for these services are added to your telephone bill. Calling a PRS number generally costs between 8.51p and £15.00 per minute, or £5 per Call or Text (excl. vat). Calling these services from mobile phones, cable networks or public payphones will generally cost more than the advertised rate. Our access charges for calling these services will be made available by your Account Manager contacted via our Customer Service Team on: 0345 314 4444

Should you have a problem with PRS we can help. We can provide advice on checking the telephone number relating to any PRS charge/s appearing on your phone bill and will try to identify the premium rate service provider. We can use Call Barring to restrict access to "09" numbers. Please call our Customer Service Team on 0345 314 4444 for advice on this.

You can also ask for help from PhonepayPlus which is the industry-funded regulatory body for Premium Rate Services. PhonepayPlus operates a code of practice that sets out standards for the operation of PRS. You can use the PhonepayPlus website at www.phonepayplus.org.uk to check PRS Numbers direct or to submit a complaint. PhonepayPlus has legal powers to require a provider of PRS to amend its service or promotional material (or both) and can also impose penalties on content service providers. For other ways to contact PhonepayPlus, see the "Useful addresses" section below.

Number Translation Services

Number Translation Services (NTS) are based on numbers that are normally pre-fixed "08". For example, 0800 and 0808 are used to provide free-phone services (some free-phone services are also provided on 0500 numbers). 0844 and 0845 numbers are normally used for customer service helplines. 0870 numbers are used for information services, technical helplines and telephone banking. They are also used by organisations to help them provide call-management features such as intelligent call routing and fax-to-email services.

Charges for calling services on NTS Numbers are added to your telephone bill and standard prices range from free to 50p per minute or per call (excl. vat). Calling these services from mobile phones, cable networks or public payphones will generally cost more than the advertised rate but communications providers must publish prices for calls to 0870 numbers where these are higher than for calls to geographic numbers. Our access charges for calling these services are available on request from your Account Manager contactable via our Customer Services Team. We can also give you a factsheet on NTS.

If you are unhappy with the help you have received from your Account Manager &/or our Customer Support Team on a problem with PRS or NTS please contact Emma Lester-Devitt (emma@tribetelecom.uk), who has responsibility for compliance with our code of practice for PRS and NTS. You may also complain using the Complaints Procedure set out in our Complaints Code including, ultimately, referring your complaint to CISAS.

The Telephone Preference Service

If you don't want to get sales and marketing calls you have not requested you can add your details to a list run by the Telephone Preference Service (TPS). If your number is on the list it is illegal for a company to call you for marketing purposes. You can contact the Telephone Preference Service via www.tpsonline.org.uk or by telephoning 0845-070-0707.
